Profile

A committed team player with 3 years of professional experience in market research, project development, and business management. Experienced in working with stakeholders at all levels. Looking for a full-time position to solve complicated business challenges and discover requirements, also I am available immediately.

Work Experience

Project Management Executive

Maction Consulting | Jan 2021- Jul 2021

Rennes, France.

- Led a team of 8 for all research studies and initiatives; developed the framework from inception to delivery.
- Maintained 100% quality and performance of the projects by providing insights and instructions to the team.
- Developed regional (Europe) presentations for C-Suite executives, including updates on current scenarios (data collected and analyzed using market and industry databases).

Market Research Intern

Maction Consulting | Aug 2020- Dec 2020

Hyderabad, India.

- Conducted secondary research about key market participants & latest technologies and tools.
- Supported the Project Manager in writing the business reports and designing & developing client presentations.

Product Lead

Teleperformance (Google Client) | May 2017- Jul 2018

Hyderabad, India.

- Maintained 98% product quality across all the platforms.
- Performed product testing and developed test cases to ensure 100% product quality.
- Created analytical dashboards to forecast the report inflow.
- Developed product documentation reports with detailed functional specifications.

IT Analyst

Teleperformance (Google Client) | Jul 2016- Apr 2017

Hyderabad, India.

- Identified and reported the bugs by performing root cause analysis.
- Collaborated with the high-quality team to guarantee timely product launch by clearing the backlog reports.
